

A Series®

Storage

Built with the user in mind, A Series offers a wide breadth of application and aesthetic options for the highest levels of design, functionality, and price scalability. It enhances workplace flexibility by easily adapting to different workstyles and aesthetic requirements. Built to be strong, durable, and secure, A Series is backed by a lifetime warranty.

HAWORTH®

The Perfect Complement for Any Space

The array of A Series credenzas is designed to work in sync with a variety of workspaces. For example, A Series is an ideal solution for benching, where storage needs are minimal and a lighter visual scale is desired. In a private office, A Series contributes a refined, residential aesthetic. In a freestanding environment, credenzas can define spaces and groups. Attach a floating worksurface for an efficient L-shaped arrangement.

Features

To support different work processes, A Series credenzas come in a variety of configurations, including open with shelves, or partially closed with various combinations of hinged-door cabinets and box/file drawers. Select from a range of heights, widths, and depths to fit the workstyle and space.

Painted-steel, height-adjustable shelves – Add versatility in open units and cabinets

Full-extension steel ball-bearing drawer slides – Enable complete drawer access and smooth operation

Hinged cabinet door – Pivot/swing with self-closing hinges that open 100 degrees for unhindered access

Full or storage back panel – Enclose the entire back for a finished look, or only the drawer section to be lighter and more open

Accessories – Add versatility with a cushion for guests, trash/recycling bin, drawer liner, and personal tray

Doors and drawers available with locks – Secure materials and lend peace of mind

Wear-resistant finish and rust inhibitor – Keep components in good condition over the long term

High-pressure laminate (HPL) – Maintain quality and visual appeal by protecting against impact, abrasions, and scratches on fronts, tops, end panels, and vertical dividers

Colors, Materials, Finishes

Because it is part of the Haworth Integrated Palette™, you can be assured A Series will blend with other Haworth products today and in the future. This ensures a unified, customized look throughout an environment. A Series also provides the flexibility to combine different styles and countless options, offering mixed materials (painted steel, wood, and laminate) as well as numerous pull styles. Choose a wood case with a veneer or steel front, or a laminate case with a laminate or steel front.
