

X99[®]

Seminar Chair

Created from equal parts style and innovation, the X99 seminar chair comfortably seats anyone, and offers a space-saving storage option when not in use. Flexible and accommodating, X99 feels like it was custom designed just for you.

HAWORTH[®]

Comfort and Functionality

Designed for lasting high performance, and with people in mind, X99 seats everyone equally well. The nesting seminar chair has a folding seat to conserve floor space, while the five-star swivel base of the advanced seminar chair adapts to any task at hand. And both have a reclining back, making X99 the most comfortable meeting chair you'll ever sit in. Part of a full family of seating, X99 fits just about any body as well as any environment.

Features

X99 was designed for a global environment, maintaining the highest level of style and performance. Every element is engineered to provide a comfortable sitting experience, especially for extended periods of time.

Seminar Chair:

Reclining back – Moves with you to sit more comfortably.

Folding seat – Allows convenient, space-saving nesting storage when not in use.

Glide or caster base – Glides ensure easy movement on any flooring surface; casters provide even greater maneuverability.

Statement of Line

Seminar Chair

Advanced Seminar Chair

Advanced Seminar Chair:

Reclining back – Responds to movement for greater comfort.

Pneumatic seat-height adjustment – Easily adapts to fit a variety of users and tasks.

5-star swivel base – Allows free movement in any direction for maximum adaptability.

Colors, Materials, Finishes

However you dress it up, X99 provides a sophisticated look and maximizes comfort. With back material choices of breathable soft mesh or fabric of your choice, X99 is guaranteed to complement any style and beautifully coexist with other furniture. The seminar chair base is steel and the advanced seminar chair is aluminum. Both are available in a silver, chrome, or black finish.
