Mobile Easel

PRODUCT INFORMATION SHEET

**HAWORTH®**

## Connect and Share at the Pace of Ideas

An uninterrupted exchange of information is essential for communication and creative problem solving in groups. That's just what the new workware mobile easel was designed to bring to the workplace. With options for wireless or wired connectivity, the workware easel can easily move to any work environment creating technology enhanced collaborative spaces anywhere needed.

## Sharing

Work is an activity, not a place. Sharing progress, touching base, comparing notes, and considering multiple points of view need to happen fluidly. The workware mobile easel makes these activities easier with portable monitor placement, power access and multiple connectivity options.

## Secure and Supported

When using the wireless feature of workware, a number of measures have been taken to provide a secure and supported environment for data sharing. The wireless mode utilizes your current secured wireless infrastructure and features a 4 digit login code that changes with each new session. With cable back up visitors can securely participate in wireless settings without accessing the network.

Workware is also fully supported from time of order through installation and use. To learn more, go to <http://haworth.com/workware-support>.

## Elegant Design

The easel's clean minimal design blends seamlessly with any environment. It's simple form helps keep users focused on the content being shared or presented. The wide range of material options further enable the easel to integrate into any work environment.

## Integrates Anywhere

The workware mobile monitor easel provides an elegantly designed platform for integrating a monitor with workware technology into public, social, open plan and work settings. The wireless option enables complete design flexibility in the design of collaborative spaces.
