level™ 1 certified
Certification # C0050452-115

GREenguARD Gold certified
Certification # 994-420

MATERIAL CHEMISTRY

We believe that our products should be safe for humans and the environment. That’s why we are working diligently to identify and eliminate chemicals of concern in the materials we source. While we have identified more than 870 chemicals that we plan to eliminate from our products throughout the next 10 years, we have identified 56 chemicals that we plan to eliminate by 2015.

These include, among others, PVC, benzidine dyes, ozone depletors, hexavalent chromium, certain hazardous phthalates, and PBDE flame retardants. We are committed to achieving this goal and being transparent with our customers about our progress.

LIFE CYCLE ASSESSMENT (LCA) SUMMARY

The total greenhouse gas emissions in terms of CO₂ equivalents is 25 kilograms.

The CO₂ equivalent emissions from the LOOK side lifecycle are calculated using the IPCC 2001 GWP 100a methodology.

Life Cycle Assessments (LCAs) are one tool which allows us to enhance the triple bottom line of Haworth products by identifying high environmental impact stages within our products’ lifecycles. Haworth is committed to better understanding and reducing the impacts of our products and operations on the natural world.

RECYCLABILITY & END OF LIFE MANAGEMENT

Once a Haworth product reaches the end of its life, our product’s end-of-life program ensures that customers have options (e.g., recycling, resale, refurbishment, and donation) to prevent it from being discarded into a landfill. To encourage recycling, we have published disassembly instructions for many of our products on the individual product pages. Our products have been intentionally built using highly-recyclable metals and plastics including steel, aluminum, polypropylene, and nylon.

We encourage our customers to contact us regarding end-of-life options in their region so that we can help them make the world a better place for future generations.

LOOK is packaged in a polyethylene bag and corrugated cardboard box, both of which are readily recyclable. Blanket wrap options may also be available to reduce on-site packaging debris.
LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED®) v2009

### Interior Design and Construction (ID+C)
- **MRc4: Recycled Content**
  - LOOK contains 15% post-consumer and 11% pre-consumer recycled content.
  - 1-2 points
- **MRc5: Regional Materials**
  - LOOK is manufactured in Bruce, MS, USA.
  - 1-2 points
- **IEQc4.5: Low-emitting materials - Systems Furniture and Seating**
  - LOOK is GREENGUARD Gold certified as low-emitting.
  - 1 point

### Building Design and Construction (BD+C)
- **MRc4: Recycled Content**
  - LOOK contains 15% post-consumer and 11% pre-consumer recycled content.
  - 1-2 points
- **MRc5: Regional Materials**
  - LOOK is manufactured in Bruce, MS, USA.
  - 1-2 points

### Core and Shell Development (CS)
- **MRc4: Recycled Content**
  - LOOK contains 15% post-consumer and 11% pre-consumer recycled content.
  - 1-2 points
- **MRc5: Regional Materials**
  - LOOK is manufactured in Bruce, MS, USA.
  - 1-2 points

## LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN (LEED®) v4

### LEED ID+C: Commercial Interiors | v4

| MR109: Interiors life-cycle impact reduction | Depending on products chosen, Haworth products can contribute to some of the design for flexibility strategies including; take back system, recyclable materials, flexible power distribution, moveable walls, or access flooring. 1-4 points |
| MR114: Building product disclosure & optimization- sourcing of raw materials | Haworth is a member of the UN Global Compact and published an annual Communication of Progress which contributes to Option 1: raw material source and extraction reporting. Haworth products also contain recycled content or FSC certified wood which contribute to Option 2: leadership extraction practices. 1-2 points |
| IEQ112: Low-emitting Materials | Haworth products are Greenguard certified which is compliant with ANSI/BIFMA Standard Method M7.1-2011. 1-3 points |

### LEED BD+C: New Construction | v4

| MR114: Building product disclosure & optimization- sourcing of raw materials | Haworth is a member of the UN Global Compact and published an annual Communication of Progress which contributes to Option 1: raw material source and extraction reporting. Haworth products also contain recycled content or FSC certified wood which contribute to Option 2: leadership extraction practices. 1-2 points |
| IEQ112: Low-emitting Materials | Haworth products are Greenguard certified which is compliant with ANSI/BIFMA Standard Method M7.1-2011. 1-3 points |
