**Specifications:**

Lightweight High-strength Concrete
Hot-dipped Galvanized Steel
Panel Size (Nominal): 24" x 24" 1-1/2"
Finished Floor Height: 3" to 91"
Overall Pedestal Adjustment: ±1" height (FFH=6")
Tolerance: Nominal panel size ±0.015"; flatness & squareness within ±0.015"

Tec-Crete performance ratings

1) Uniform load data is based on maximum deflection of 0.040". Typical slabs under access floors have uniform load capacities less than the rating of lowest uniform load capacity of any Tec-Crete series floor.
2) Rolling tests used in the CISCA test procedures are performed as follows: 10 passes with a 3" x 1-13/16" caster; 10,000 passes with a 6" x 2" caster. Worst-case permanent set (inches) is shown for each system.
3) Impact tests are based on 36" drops onto a 1 inch square indenter without ultimate failure of the system.
4) Concentrated load is applied over a one square inch.
