

# Openest® Chick™

## Poufs

With today's shrinking workplace footprints, organizations are pressured to do more with less space. As part of the Openest collection of products designed by Patricia Urquiola, Chick poufs help leverage under-utilized space by creating cozy, versatile work areas that people are drawn to.

HAWORTH®

### Warm and Inviting

The Openest collection bridges the concepts of experience and environment, giving rise to warm, inviting spaces where people can work, gather, share ideas, or simply relax. Chick poufs help create a sense of community, offering approachable comfort and versatile practicality for changing needs. Use pieces alone or mix and match them in groups. Subtle height variations and a range of top and side fabrics allow you to build a layered landscape of colorful, collaborative spaces.

### Features

Designed with soft lines, close attention to detail, and fine craftsmanship, Chick poufs create cozy spaces that inspire people to do their best work.

**Four shapes and sizes** – Mix and match large and small squares, rectangles, and extra-large round poufs to create inspiring, comfortable, and versatile spaces.

**Varied top and side fabrics** – Personalize Chick poufs with the ability to specify different fabrics and colors for the tops and sides.

**Adaptable backrest** (available on small square pouf only) – Flipped up, it changes the Chick pouf into a comfortable chair; flipped down, it makes for an ottoman or catch-all surface.

### Colors, Materials, Finishes

Coordinated fabrics in colors that range from serene to energized, complemented by stitched accents, add to the visual appeal of Openest Chick poufs. Easy to arrange and ready for anything, Chick poufs are at home in any space—from individual focus and retreat areas to collaborative gathering and social spots.
