

Compose®  
and Enclose®

HAWORTH®

Great alone. Better together.

Presenting the perfect marriage of wall and system. Design and engineering. Function and freedom. Designed by Studio & Partners in Milan and Haworth Design Studio, the Compose open plan system and Enclose moveable walls stand alone beautifully, and work even better together. From private offices to collaborative and open spaces, you can create a coherent design across a complete floorplate.

A modern office chair with a white upholstered seat and backrest, black armrests, and a silver five-star base with casters. The chair is positioned in a minimalist office environment with a light-colored wooden desk and a white wall. In the background, there are large windows with blue-tinted glass. On the desk, there are three white ceramic vases of different shapes. The overall aesthetic is clean and modern.

## A study in simplicity.

Discriminating details and an architectural perspective give the Compose open plan system a simple, clean aesthetic. Compose adapts to your space, and your vision, with precision—giving you incredible design freedom and flexibility.

## A geometric edge.

A disciplined approach with strict attention to detail allows Compose to complement your interiors without dominating.

Double-cut veneers with low-gloss, horizontal grain add sophistication. Special design details, such as tiles that can meet the floor, uninterrupted 16-foot runs, and continuous, one-piece top trim stand well apart from the expected.

## Designed for people.

Compose is designed around human dimensions and convenience. Panel heights provide more options for seated privacy and standing-height views, while the 24" glass stacking frame allows seated-height views with greater access to daylight. Power and data access is supported above or below the worksurface, as well as at the base raceway. And innovative worksurface shapes encourage outward orientation. Details like these demonstrate a new level of sensitivity to end-user satisfaction and well-being.

## Intelligent integration.

The Compose open plan system and Enclose moveable walls have been designed in tandem, and it's apparent in every detail. In monolithic or segmented applications, Compose integrates readily with Enclose moveable walls. Extensive finishes give you a range of coordinated options throughout. Designed-in details and shared furniture components translate from wall to system, making it easy to align private offices with the open plan.

## A consistent floorplate.

With a variety of finishes, full-height doors, and hanging components that transfer seamlessly to Compose, Enclose four-inch-thick walls rival the aesthetics and stability of fixed-in-place construction.

Compose and Enclose transform an empty shell into a dynamic, inviting environment with consistency throughout the floorplate, allowing the interiors to appear custom built.

## Ultimately adaptable.

A wide range of options and finishes helps Enclose adapt to any office environment and architecture. As a company changes shape, Enclose provides the flexibility to change with it. Two private offices can be transformed into one large conference room overnight, with ease and efficiency.

A modern office interior featuring a vibrant red wall with horizontal panels. In the foreground, a low-profile ottoman with a multi-colored striped pattern (orange, yellow, red, and grey) sits on a reflective floor. Behind it, a tall, thin floor lamp with a white cylindrical shade stands on a tripod base. To the left, a glass partition with a dark frame and silver handles is visible, suggesting an office cubicle or meeting area.

## Options at every level.

Every department and work style has its own unique set of needs. Some are strongly collaborative and require spaces that support the exchange of ideas. Others require greater privacy to foster concentration. Together, Enclose and Compose work to support every level of an organization with design continuity, a diverse materials offering, and varying degrees of privacy to provide for each individual's needs.

## A sense of endurance.

Enclose walls effortlessly merge with the existing architecture of a space. Tight connections between floors, walls, columns, and ceilings blend seamlessly, providing a sense of endurance and stability. And when Compose and Enclose are used together, they offer maximum continuity from private spaces to collaborative areas to open plan.

## Details designed to perform.

A one-piece top trim option can span multiple panels, for a clean, continuous line.

Engineered for stability, Compose allows 16-foot runs with unbalanced overhead storage, minimal floor support, and no return panels.

Steel alignment pins maintain strict reveals on all tiles and top trim, for complete consistency.

Extruded aluminum ensures precise geometric trim lines.

## Compose System

Full- or partial-height walls suit any space and create environments with varying degrees of enclosure.

## Enclose Walls

Choose from three corner options. Frameless glass corners provide a clean, contemporary look. Closed or open corners impart a feeling of streamlined stability. All trims are available in rectilinear aluminum or wood.

# Finishes

## Laminate

Linen H-WL	White Sand H-LC	Platinum H-3P	Putty H-AA

## Worksurfaces

### Rectangular

Depths: 18", 24", 30"  
Widths: 24", 27", 30", 33", 36",  
39", 42", 45", 48", 51", 54", 57",  
60", 63", 66", 69", 72", 75", 78",  
80", 81", 84", 87", 90", 93", 96",  
99", 102", 105", 108", 111",  
114", 117", 120"

### Wedge

Depths: 18"/24", 24"/30"  
Widths: 24", 30", 36", 40", 42",  
48", 54", 60"

### Bent

Depths: 24"  
Widths: 36", 40", 42", 48", 60"

### Transition

Depths: 18"/24", 24"/30"  
Widths: 24", 30", 36", 42",  
48", 54", 60"

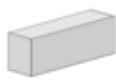

### Angled Corner

Depths: 18", 24"  
Widths: 42", 48"

As well as integrating with each other, Compose and Enclose have been designed to work with these Haworth products: X Series® and V Series® storage and casegoods, Adaptable Components, Power Base™ Pre-Terminated Zone and TecCrete® Access Flooring.

## Overhead storage

### Standard Mount, Mid-mount, Up-mount

Depth: 14"  
Height: 16"  
Widths: Please refer to price list

### Open Shelf

Depth: 14"  
Height: 8"  
Widths: 24", 30", 36", 40", 42",  
48", 54", 60", 66", 72"

### Compose Box with Sliding Doors

Depth: 14"  
Height: 16"  
Widths: Please refer to price list

# Enclose Walls

**Concealed Leveling**  
at the ceiling provide up to one inch of adjustability, ensuring ceiling connections remain constant.

**Utilities**  
At base raceway, below work surface, beltline, or at a custom location.

**Walls**  
Heights: 84" - 126"  
Widths: 8" - 48"  
Solid & Combination

**Removable Tiles**  
All wall tiles can be easily removed and replaced to alter the aesthetic or repair a damaged tile.

**Tiles**  
Heights: 8" - 126"  
Widths: 8" - 48"

Enclose offers a wide range of Class A finishes and non-combustible tile materials, including drywall and metal.

Wall covering  
Laminate (HPL)  
Wood Veneer  
Painted Metal

**Doors**  
Sliding or Swing  
Single or Double  
Heights: 84" - 120"  
Widths: 40", 48"

**Glass Walls**  
Heights: 84" - 126"  
Widths: 8" - 60"

**Lateral Bracing**  
can be specified for projects in seismic zones.

**Wall Frames**  
are 4" deep with a 7/8" profile for slim vertical lines.

**Leveling Glides**  
concealed at the base allow up to two inches of adjustability, ensuring panels remain level.

**Merger**  
Depths: 18", 24", 30"  
Widths: 36", 40", 42", 48"

**90° Notched Corner**  
Depths: 18", 24"  
Widths: 36", 40", 42", 48"

**Key**  
Depths: 30", 36", 42", 48"  
Widths: 48", 60", 72"

**120° Corner Wrap Around**  
Depths: 18", 24", 30"  
Widths: 36", 42", 48", 54", 60"

**Countertop**  
Depths: 12"  
Widths: 23", 24", 29", 30", 35", 36", 41", 42", 47", 48", 53", 54", 59", 60", 65", 71", 72"

## Worksurface supports

**Support Panel**  
Height: 27"  
Depths: 12", 18", 24", 30"

**P Leg, Double Leg, Single Leg, Planes Single Leg**  
Heights: 27"  
Depths: 18", 24", 30"

**Adjustable Disc Base**  
Height: 27" - 31"  
Diameter: 21"

## Tables

**Octagon**  
36" x 72"  
42" x 84"  
48" x 96"

**Round**  
30", 36", 42", 48"

# Haworth Surface Collection

Sophisticated textures, designs and colors. Sustainable materials. Simple to use. The Haworth Surface Collection for the Compose open plan system and Enclose moveable walls gives you tremendous flexibility and freedom, while offering matching finishes across each line.

What's more, with water-based wood finishes, powder-coat paints, highly sustainable systems fabrics and wallcoverings, creating environmentally friendly designs is simplified. Expand your textile choices through the Haworth+ program, with approved systems fabrics from Carnegie, Luna Textiles and Maharam.
