

Layers of Organic Workspace®

HAWORTH

We understand that external influences shape your organization's vision for the future, and the business objectives you set today will likely change tomorrow. As your workplace needs change, your space should evolve as well.

Our Organic Workspace flexes with your needs, reducing the cost of re-aligning your space to support your ever-evolving business activities. Unlike conventional spaces, Organic Workspace is designed to embrace change, ensuring that the physical space, technology, and policy remain in alignment with organizational goals.

We can help you create a space that responds quickly and efficiently to frequent change, and adapts for the future. Let us show you how. From the flooring to the furniture—everything works together, on every layer.

Layers of Organic Workspace®

Adaptable Utilities Platform

Modular power, voice, and data introduce flexibility at the very beginning. Plug-and-play components snap together without tools for swift installation and efficient reconfiguration. From the floors to the furniture and moveable walls, Haworth utilities seamlessly integrate to support even the most challenging requirements.

Raised Access Floors

Solid and quiet, TecCrete® access floors are ideal for a wide range of environments, including computer rooms. TecCrete installs quickly and easily above the underfloor power, voice, and data system—keeping utilities within easy reach to support your organization's changing needs.

Elevate sustainability and efficiency even further by incorporating HVAC under the floor. Swirl diffusers place climate control at users' fingertips.

Layers of Organic Workspace®

Adaptable Architecture

Divide, contain, or enclose space with modular architecture designed to meet a wide array of interior needs. 100% reconfigurable, our Enclose® moveable walls and Patterns™ architectural system provide a sense of permanence that's more cost effective and sustainable than conventional construction or millwork. And whether your organization is growing, changing, or moving, your space can readily adapt to evolving needs with minimal expense, waste, disruption, and downtime.

Freestanding Furniture

Effortlessly blend floors, walls, systems, and furniture throughout the space to support multiple occupants' needs, from privacy to collaboration—short-term or long-term. Haworth products offer unsurpassed integration of materials and components, physical connections and dimensioning, to create unified environments while minimizing assets. It's never been so thoughtfully simple.

As time goes on, your business needs will change; your space should adapt, too. For example, many organizations are shifting their space allocation to accommodate collaborative activities. Our products make it easy to efficiently and economically reconfigure your floorplan—and reuse more than 75 percent of your assets—to address your company's needs, now and in the future. And if you want to add furniture pieces, they can be seamlessly integrated into the floorplan.

Or, perhaps your organization is going through a period of growth that drives changes in your workforce and workspace—within a footprint that continues to shrink. Whether your company is striving for a more open floorplan or looking for more privacy, our portfolio accommodates a wide array of needs and aesthetics. You can have the confidence that the product you've invested in can be utilized to solve workspace challenges long-term.
