

# Hoop™

## Collaborative Table

As floorplans continue to shrink, organizations are hard-pressed to provide collaborative spaces plus provide variety and choice for employees. Hoop is a standing-height table that encourages collaboration and supports posture changes for well-being. With its fit-anywhere, slim design, Hoop is also lightweight and easy to move, enabling versatility wherever people work.

HAWORTH®

### Collaboration All Around

Reminiscent of a bar that’s approachable from all sides, Hoop supports impromptu collaboration between two to four people. It’s a useful and unique addition to open spaces or group project areas.

### Features

Hoop can be used alone for small group collaboration or as an accessory within a space. Or, combine multiple tables to support large group applications.

**Slim, lightweight design** – Allows you to easily move Hoop anywhere within a small footprint.

**Footrail** – Provides a comfortable position on either side of the table when seated on a stool.

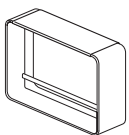

**Standing height** – Offers people a change of position in a setting away from the desk, or a place to check email between meetings, etc.

### Colors, Materials, Finishes

This unique, molded meeting surface is available in Smooth Plaster and Fog. The fabric cover is available in three colors to provide accent: Frost, Misty, and Shadow.
