

K700 by Haworth

Kinetics Design Studio | 1980

The paperclip-inspired base of the K700 stool is a single piece of tubular steel—an innovative design that remains fresh and cool after more than 35 years. The seat is welded to the base, and the high stool base is formed to make a footrest. The K700 stool is available in three heights for cafés, kitchenettes, meeting spaces, and break areas. A stool cap is available in fabric, Brisa faux leather, and leather.
