Seating

HAWORTH PREFERRED PARTNER

Kobi

by Patrick Norguet

A new type of chair, inspired by the tradition of iron wire chairs, coming up with an elegant and light-weight structure: highly contemporary suspended architecture.

Alias

HAWORTH PREFERRED PARTNER

Tabu

by Eugeni Quitllet

"TABU" uses the most advanced technology available: that of NATURE, and another: that of man ...the Robot, To shape the gifts of the EARTH to meet the needs of man. To plant an organically modified seed to create a chair... Not so much a chair but a grain! A grain of the future. "To synthesize nature in order to naturalize industry"

"To recover the sense of Authenticity, Beauty and Goodness"

TABU is a metaphor of truth.

Alias

HAWORTH PREFERRED PARTNER

Kayak

by Patrick Norguet

A product of technical complexity, it offers a body-hugging seat, remarkable good looks and equally good stability. The challenge confronting the French designer was to reduce the thicknesses of the chair as much as possible without compromising its physical resistance.

So, the assembled legs, frame and shell create an impression of extreme lightness from a formal viewpoint. Kayak is available in natural or dark stained oak, walnut and in some stains colour finishes of more intense tones such as coral or sage green, as well as pastel shades.

Alias

HAWORTH PREFERRED PARTNER

Tindari

by Alfredo Häberli

This comfortable upholstered chair available in a range fabrics or leathers, offered in the more formal tindari version and the more welcoming taormina design, with arms. Tindari and taormina both feature a padded shell made from techno polymer with flexible polyurethane foam designed for a soft seat, with fully removable covers.

Alias

HAWORTH PREFERRED PARTNER

Taormina Trestle

by Alfredo Häberli

Based on the concept of segesta, taormina armchairs have a frame available with various finishes and shapes. Stacking chairs, comfortable armchairs, rocking chairs and on castors with adjustable height and swivel base are variants that, for shape and function, lend themselves to indoor use, for both home or contract.

Alias

HAWORTH PREFERRED PARTNER

Sand

by Pocci + Dondoli

In the Sand project coexists characteristics that hardly can be combined in a single chair: refined aesthetics, great comfort, lightness and sturdiness. Stacking chair with die-cast aluminium frame. Available also in covered version. Also for outdoor use in some finishings.

DESALTO

HAWORTH PREFERRED PARTNER

HAWORTH PREFERRED PARTNER

Frantz

by Producks Design Studio

The design of the chair Frantz dates back to the revolution in the history of bentwood chair created in the 19th century. Frantz reorganizes the bond component; the legs of the chair pass through the seat and connect harmoniously back, changing the common layout and highlighting the lightness of the chair and the overhang of the back.

HAWORTH PREFERRED PARTNER

Harlequin

by Markus Johansson

Let the popular traditional Swedish stick back chair blend with soft upholstered textiles. Harlequin is crafted at the crossroads of two different worlds, one pragmatic and sturdy, the other all comfort and joy. The piece seems almost to emanate from the world of theater replete with richness of patterns. The seats is made in beechwood or ash and upholstered in fabric and/or leather. This is an exuberant meeting of different materials, which with the comfort and the details all results in a lively experience that is suited both for home and contract.

Lounge

HAWORTH PREFERRED PARTNER

Gran Kobi

by Patrick Norguet

The gran kobi collection evolves naturally with the introduction of a wider base to allow for new uses.

Gran kobi is a generously proportioned, low-slung armchair. A most versatile seat, perfect for a relaxing break. Ideal for use in domestic lounges and public waiting rooms, or even in informal office contexts, gran kobi is conducive to a relaxed attitude and guarantees maximum comfort.

Alias

HAWORTH PREFERRED PARTNER

Softer than Steel

by Nendo

Softer than steel is a poetic and delicate collection consisting of benches, a chair, small tables, and a coat stand. By adding flipped, bent and wrapped details to metal sheets and rods, the ordinarily hard metal gain new functionality and a light, flexible feel, as though the metal has become paper or cloth.

Bench in metal sheet whit bent back and rod steel legs, matte white lacquered.

DESALTO

HAWORTH PREFERRED PARTNER

Cape 801

by Daniel Debiasi & Federico Sandri

A soft, wide seat is embraced by a padded shell made of generous volumes that thin altering the perception of the object. The outer surface hides an inner softness that suggests comfort. The seams emphasize the contours of the body with a change of color coordinated with the finish of basis. The solid wood legs are lightened by a clean cut and maintains the natural wood finish. Proportions, geometry and details define a new family elegance for an autonomous object but able to relate to different contexts home and contract. CAPE The family grows in lounge chair, sofa and armchair dining.

It is suitable for public space like leisure lounge area, reception hall and conference area.

HAWORTH PREFERRED PARTNER

Moira Sofa

It is suitable for public space like leisure lounge area and reception hall.

HAWORTH PREFERRED PARTNER

Shirley Sofa

The back of the sofa is manufactured by bending wood together with leisure and compact design. No armrest design eliminates width limitation. It is suitable for all kinds of public leisure areas.

HAWORTH PREFERRED PARTNER

Wei Sitting

It is suitable for conference space sitting. Horizontally adjustable seat helps reducing stiffness caused by long time sitting. Additional rotatable writing pad can be attached to this chair allowing this chair to be used for taking notes during conference.

HAWORTH PREFERRED PARTNER

Gabbiano

In a constantly changing society in which we often find ourselves in different situations that requires different solutions to achieve in different contexts. Interiors and furnishings must be flexible and multi-purpose to adapt to different times of the day. These are the reasons why Gabbiano was conceived and created. Gabbiano is an innovative and peculiar couch with extreme flexibility. It allows it to be used within different environments, situations and in more than one way. From a domestic to an office or contact ambient. It gives to the user the possibility to use it in several ways: high back and high armrests, and both low back and low armrests. All these different conditions lead to the creation of two peculiar situations of privacy both obtained by means of a simple gesture through a zip which link the arm to the backrest.

STRUCTURE FRAME: The structure of the seat, backrest and the armrest, are all composed by a rectangular steel tube. Into the structure of the seat are stretched elastic straps which permit the couch to be more comfortable.

HAWORTH PREFERRED PARTNER

Lepod

Lepod sofa as a combination of artistic quality and interest, the sofa is of tubular base with soft cushions creating a firm but soft feeling. The unique high wall back structure, provide convenience for private or small group to discuss confidential information in close space. H-shape leg and the inclination of sofa body, making the whole sofa sends out a contemporary sense of fashion and personality. It is suitable for the urban public environment, business meetings, leisure etc. and in the limited interior space to create a relatively comfortable setting with closed privacy. It brings you an unexpected, yet understandable chic experience.

HAWORTH PREFERRED PARTNER

PhoneXL

Phone XL is a single-seater intended for public areas for example, an office space. When placing a couple of these Phone XL in the work space, it is for anyone who wants to make a private telephone call clearly without distractions. Phone XL, is constructed in such a way that it damps the sound what comes from outside as well as from the inside.

The phone XL is made of wood, upholstered with Cashmere and it has a power plug to provide power to your mobile phone.

HAWORTH PREFERRED PARTNER

MysticT

MysticT also called the T word puzzle, is a kind of product that looks like a jigsaw puzzle from the Han traditional intellectual toys. MysticT is composed of 4 pieces of irregular shapes which is divided into by a rectangle (the puzzle uppercase character "one"). There are different sizes of right-angle, isosceles right-angled triangle and concave pentagon. The interior angle of those polygon in addition to right angle, there are 45°, 135° and 270° angle.

HAWORTH PREFERRED PARTNER

Pig

Pig is a nice zoomorphic looking pouf. It can be used in a large range of situations thanks to its simple but elegant shape that can be coated in leather or fabric.

Pig is a multipurpose pouf; lifting the upper half it becomes a tea table thanks to the elipsoidal plexiglass panel, under which small objects and magazines can be placed.

HAWORTH PREFERRED PARTNER

House

There is a house in everyone's heart, where there is a cup of tea, chatting and imagination. A house carrying our dream's and making our jobs as comfortable as a way of life.

House series, integrates in daily work communicating, sharing, thinking and leisurely working in a relaxed way. HOUSE let's you find the feeling of home at work!

HAWORTH PREFERRED PARTNER

Vasca

This unique and beautiful chair, by the top Dutch designer Erik Couzy, is truly a work of art. The chair is inspired by a sports car, but it is far more than that. The back of the chair is perhaps even more special -- where it is open to reveal an artistic tension. By walking around the chair you will discover an interesting interplay of lines, which seems to change constantly...

HAWORTH PREFERRED PARTNER

Olga

For the waiting area and the meeting room Olga is program of seating composed from chair, armchair, stool and lounge chair. The cushion is composed from different density of cutted foam. It is completed by a steel tube structure, diameter 16, on which rests the body of seat giving the impression of lightness and big comfort.

The idea comes out from the necessity to have a family of upholstery seating for indoor and outdoor, just changing the fabric.

HAWORTH PREFERRED PARTNER

HAWORTH PREFERRED PARTNER

LC-011

LC-011 comes in two versions, one in one-piece-formed die-cast aluminium, using aerospace aluminium alloy with natural polished aluminium finishes, and the other in two boned fiberglass shells finish with a range of colours of exquisite paint for selection.

Dim.: 620 (W) x 970 (D) x 820 (H)

Tables

HAWORTH PREFERRED PARTNER

Ago

by Alfredo Häberli

By combining the three traditional materials of wood, glass and metal, Alfredo Häberli has put his name to ago table, a pioneering project whose impacting graphical signature reinterprets the great classics of Scandinavian design in a more contemporary key.

The unquestioned protagonist of this table is its technical structure which, as well as contributing to define the aesthetic content, also allows for considerable flexibility.

Alias

HAWORTH PREFERRED PARTNER

Atlas Table

by Jasper Morrison

The main purpose of the atlas collection is based on one single concept of legs in conic white and grey stove enamelled steel. Tables and small tables are developed with the same structure, on a round or cross base, with tops available in different shapes and dimensions, made of aluminium with laminate or veneered in different wood finishes including the new canaletto nut one.

Alias

HAWORTH PREFERRED PARTNER

Tree Table

by Paolo Rizzato

The three-leg structure in die-cast aluminium, polished or stove enamelled, is the main idea of this collection, consisting of armchairs and stools, with seat in Viennese cane, tables with top in wood or in clear crystal glass. The aesthetic and functional features make each piece ideally suited for a variety of applications, in the home or the home office.

Alias

HAWORTH PREFERRED PARTNER

Frametable

by Alberto Meda

Perfect for any interior or building, whether public or private, historical or modern, the tables of the frame collection feature essential design and great formal lightness. The different versions have a structure in die-cast aluminium and rectangular tops available in various finishes: tempered glass, sandwich glass, anodised aluminium alloy, laminate, or a range of wood veneers.

Frametable, in its original folding version, is light-weight but stable; its folding mechanism gives the table an unusual aesthetic value. Frametable folding simply ensures outstanding flexibility of function as well as acquiring unusual decorative qualities when leant against a wall with its legs folded.

Alias

HAWORTH PREFERRED PARTNER

Tavolo Zero

by Ron Gilad

The refined touch of Ron Gilad enters the Alias collection, for which the Israeli designer has developed the concept of the basic four-legged table.

His talent for conceptual synthesis, coupled with an ironic spirit, materializes in a collection of pared-down, abstract geometric shapes, in which the table corner – interpreted as a structural element – is magically emptied and almost stripped of its consistency, giving way to an enigmatic shape, an empty space outlined by colour.

Alias

HAWORTH PREFERRED PARTNER

Modular

HAWORTH PREFERRED PARTNER

Aline

by Dante Bonuccelli

Linear. Light. Of a rigorous elegance. Bookshelves as the tasteful backdrop of a home or office.

The architect-designer of Argentinean origin imagines a clean, extra-thin structure. Made from extruded aluminium, in the neutral hues of white, charcoal grey and anodised aluminium, it lets the books do the job of decorating the environment. It can be assembled with maximum ease.

The structure can be equipped with containers, with tilt or sliding doors, and drawers, and is suitable for the installation of LEDs in the uprights, resulting in a subdued but highly suggestive scenographic effect.

Alias

Height Adjustable

JC35TF-D8 (Bench)

Dynamic load push:1000N each side
Leg dimation: 70x70mm(3 segments)
Input:110 or 230V
Speed: 35mm/s
Lowest position: 623mm
Highest position 1273mm
The long beam have 3 sizes for selection
1220mm beam for table top length:
≤1600mm

1520mm beam for table top length: 1700-1800mm
1720mm beam for table top length: 1800-2000mm
The short & long beam tube dimation: 60x60mm

JC35TF-ED3 (Bench)

Dynamic load push:1000N each side
Leg dimation: Φ70mm (3 segments)
Input 110 or 230V
Speed: 35mm/s
Lowest position: 623mm
Highest position 1273mm
The long beam have 3 sizes for selection
1220mm beam for table top length:
≤1600mm

1520mm beam for table top length: 1700-1800mm
1720mm beam for table top length: 1800-2000mm
The short & long beam tube dimation: 60x60mm

JC35TH2-Electric

Dynamic load push: 800N
Leg dimation: 70x70mm(2-segments)
Input: 110 or 230V
Speed: 20mm/s
Lowest position:700mm
Highest position:1150mm

JC35TH-2-SY01-Manual

Dynamic load push 700N
Speed: 9mm/s
Lowest position 700mm
Highest position 1160mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm

JC35TH3-Electric

Dynamic load push 900N
Leg dimension: 75x75mm (3-segments)
Input: 110 or 230V
Speed: 20mm/s
Lowest position 590mm
Highest position 1210mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm

JC35TH-3-SY01-Manual

Dynamic load push: 700N
Speed: 9mm/s
Lowest position 700mm
Highest position 1160mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm

JC35TS-D8

Dynamic load push:1000N
Leg dimension: 70x70mm(3 segments)
Input: 110 or 230V
Speed: 35mm/s
Lowest position: 623mm
Highest position:1273mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm

JC35TS-ED3

Dynamic load push:1000N
Leg dimension: Φ 70mm (3 segments)
Input: 110 or 230V
Speed: 35mm/s
Lowest position:623mm
Highest position:1273mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm

JC35TT-D8

Dynamic load push:1500N
Leg dimation: 70x70mm(3 segments)
Input 110 or 230V
Speed: 35mm/s
Lowest position: 623mm
Highest position 1273mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm

JC35TT-ED3

Dynamic load push: 1500N
Leg dimation: Φ 70mm (3 segments)
Input: 110 or 230V
Speed: 35mm/s
Lowest position: 623mm
Highest position 1273mm
Recommended table top size:
length:1200~1800mm
depth: 600~800mm
