

HAWORTH

Zody | Seating

ORGANIZATIONS THAT MAKE WELL-
BEING A TOP PRIORITY UNDERSTAND
THE IMPORTANCE OF CHOOSING THE
RIGHT ERGONOMIC SEATING FOR THEIR
WORKFORCE. BUT, WHERE DO YOU FIND
A HIGH-PERFORMANCE TASK CHAIR THAT
BLENDS SCIENCE-BASED SUPPORT AND
COMFORT WITH GLOBAL DESIGN?

Zody

With a host of ergonomic refinements and a sleek, sustainable design, Zody® provides proven support and easy adjustments that let users set personalized comfort levels for any environment—
from workstation to boardroom.

International Design

Light in scale and thin in silhouette, Zody demonstrates that a comfortable, ergonomic chair can be affordable, yet sophisticated with a strong aesthetic appeal. Thanks to European and North American design collaboration, Zody is truly international, as well as versatile to complement any work environment.

Form Follows Science

More than two years of persistent research and development led to the innovations that resulted in Zody. Offering our patented Pelvic and Asymmetrical Lumbar® (PAL), Zody features passive pelvic support and a user-selected asymmetrical lumbar support system.

Set Your Own Comfort

Zody's unique PAL back system lets users position the lumbar pad to fit the natural curvature in the lower spine and independently adjust the level of support on each side. This customization, plus a flexible frame with a breathable mesh or knit back and pelvic support, provide a broad range of users with a personalized ergonomic experience that enhances comfort and well-being.

Design Choices

Both Zody task chair and its complementary guest chairs let you choose from a range of options, finishes, and upholstery to fit any culture and atmosphere, from casual and fun to chic and elegant.
