

Riverbend™

Lounge Seating

Riverbend lounge seating offers solutions designed for short-term spaces that support people's needs for a variety of purposeful work settings—from open, collaborative spaces to areas for quiet contemplation. Its vast array of configuration possibilities and scalability of design offer flexibility for smart space planning within a wide range of environments and floorplate sizes.

HAWORTH®

Support Variety, Choice, and Purposeful Work

Riverbend lounge seating and the complementary Pebble™ ottoman are easily configured to create a variety of settings that offer people choices in spaces for individual focus work, face-to-face discussions, or collaborative sessions. The modern geometrical design and casual feel draw people in, so they can innovate, work efficiently, and perform their best.

Features

With just 22 pieces in a variety of shapes and sizes, Riverbend and Pebble can form numerous configuration combinations to maximize investment. Applications suit commercial, education, and healthcare environments.

High back sofa – Minimizes distractions, offering a level of visual and acoustical privacy

Mid back and no back sofa – Support an open environment to encourage interaction

Concave, convex, and square corner pieces – Allow for more customized applications with 60-degree or 90-degree angles

Pebble ottoman – Provides a secondary surface for work, personal items, or additional seating, expanding configuration and application possibilities

Optional AC and USB power module – Help people stay connected and keep devices charged

Colors, Materials, Finishes

Riverbend has a classic design that is neutral enough to complement any environment and work in a multitude of settings. Choose pieces with horizontal seams for a tailored look, or without seams for a simple aesthetic—both available in a variety of colors. Together with Pebble, Riverbend encompasses the simplicity and versatility to furnish a range of spaces and floorplates over the long-term.
