### Very. A Global Seating Family with Universal Appeal.

Haworth introduces the Very family of seating. Designed by the Haworth Design Studio and Simon Desanta, Very seating brings global design and science-led comfort to the forefront.

Very delivers international design with a smart, slender profile that celebrates its light scale and airy aesthetic. With its attractive angles and artfully perforated back, Very imparts sophistication wherever it goes—from the conference room to the café—from Chicago to Shanghai.

**HAWORTH®**

# Very Seating Family

The Very family includes a Conference Chair, Seminar Chair, Side Chair and Wire Stacking Chair. (Cart not shown.)

Conferencing comes to life with Planes® Table and Very Conference seating featuring upholstered seat and back.

Very Wire Stacking Chairs offer personality, form and function.

## Very Versatile

With an internationally influenced color palette and four seating styles to select from, there's a choice for everyone. Whether you prefer neutral colors for your guest seating, upholstered seat and back for the conference room—or a splash of color in the café, Very brings choices to life.

Its minimal design focuses on user needs and allows Very to adapt and support many environments. From educational spaces to conference rooms, teaming to hoteling, guest seating to cafés, Very can work across your organization.

## Very Smart

Very seating has built-in intelligence for user comfort. The Very seminar and conference chairs provide intuitive recline, ensuring user weight is absorbed and distributed to provide natural support and its side-to-side torsional flex allows the backrest to follow the user as they move, increasing mobility and comfort when reaching sideways for objects.

## Very Convenient

The slender profile of Very fits in anywhere, and when they're not in use, convenient stacking capabilities come through! The wire stacking chair can stack 10 high on the floor—up to 40 on the cart for easy mobility. And the side and seminar chairs both stack 5 high on the floor and 8 high on their cart.

## Very Responsible

In addition to convenient storing and stacking, Very seating goes easy on the environment. Very is **MBDC Gold Certified**. The family includes up to 71% recycled content and is up to 98% recyclable. Very seating can be disassembled for recycling in less than five minutes. And, Very is **GREENGUARD® certified**. The Very seating family is sure to support your sustainability strategies and may contribute toward LEED® credits.
