Features and Specifications

Area Rugs

Mangas Space rugs are available in two shapes and sizes. The rugs are comprised of 100% new wool, and are made using a hand loom technique. Rug thickness is approximately 1.5" (40mm).

Additional Notes

New wool rugs may shed fibers during the first few months. This is a normal feature of wool and is in no case sign of deficient quality. Each rug is made by hand and therefore has a unique design. Variations in size (not exceeding 5%) may occur. Any variations in the fabric or color are not errors or defects.

Mangas Space rugs compliment Mangas Space seating.
