Features and Specifications

Lounge Chair, Settee, and Sofa

The frame is exposed steel, available painted or in a chrome finish. The seat cushions are reversible and filled with high density foam and polyester fiber over strip webbing.

Connecting Elements

White satined acrylic plexiglass, which can be added on to individual lounge pieces, or used to conjoin multiple lounge chairs, settees, or sofas.

Additional Notes

Textile crispness will be influenced by the amount of stretch in each textile. Some textiles will stretch more than others, resulting in a small amount of material pooling. This can be addressed by running a hand across the surface to smooth the material.

m_sit tables compliment m_sit seating.
