Features and Specifications

Benches and Rockers

Shetland benches and rockers are comprised of nine plies of alternating poplar and sycamore, providing an elegant edge detail. The rocker allows for 10 degrees of movement in two directions.

Saddle

The optional saddle features white double stitched details with a foam insert. The saddle is removable and interchangeable. A non-skid bottom layer prevents the saddle from sliding along the bench and rocker.

Surfaces

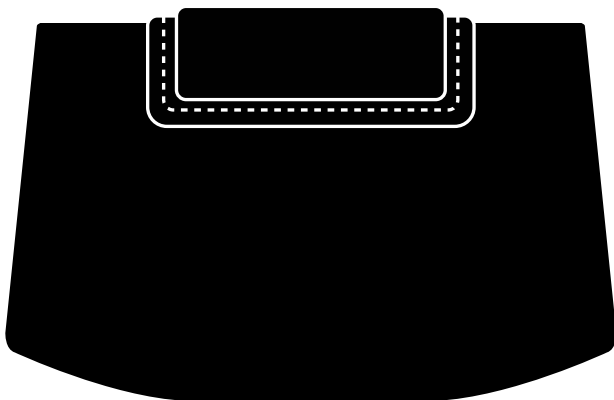

For a complete list of upholstery options, please refer to surfaces.haworth.com.

Paint

Polar (TR-PL)

Wood

Clear on Walnut (XW-CL)
