

BuzziHub

BuzziSpace | Alain Gilles | 2011 | Imported from the Netherlands

Features and Specifications

Booths

BuzziHub's structure is made of poplar plywood and covered in acoustic foam, a layer of felt, and upholstered in fabric. Available as a single booth or a double booth with an optional side panel, the interior of the booth is a 3D rib or diamond pattern. A contrasting upholstery color for the exterior can be selected in the same fabric grade as the interior. An optional upholstered cushion and armrest, as well as an LED light for the back of the bench are available.

Additional Notes

BuzziHub features acoustic absorption and attenuation for mid tones and high tones, as well as visual privacy.

Handedness is determined by the user when seated.
