Features and Specifications

Privacy Screens

BuzziFrio is a set of three freestanding, sound absorbing privacy screens available in two orientations. It's made of a honeycomb cardboard core and covered in BuzziFelt with an integrated metal profile for assembly. An extra layer of fabric can be specified over top of the BuzziFelt. The three panels can be specified in different patterns and colors. If multiple patterns are specified, an upcharge is added to the list price. The panels can be installed in any order and within a range of 4.72" to the right or left of the center of the baseplate. The baseplate is powder coated metal.

Additional Notes

BuzziFrio features acoustic attenuation and diffusion for high tones, as well as visual privacy.
