

BuzziBooth

BuzziSpace | Alain Gilles | 2010 | Imported from the Netherlands

Features and Specifications

Booths

BuzziBooth's structure is made of poplar plywood and covered in acoustic foam, a layer of felt, and upholstered in fabric. Available in a standard seated height or standing height, the interior of the booth is a 3D rib or diamond pattern. A contrasting upholstery color for the exterior can be selected in the same fabric grade as the interior. The worksurface is available upholstered with a cable tray, in White (BHL-WHT) laminate without a cable tray, or in Antwerp Oak (BAO-ANT) with or without a cable tray. Each solid wood worktop is unique and may contain knots, natural color variations, and drying splits as normal features of the product. An optional LED back light is available.

Additional Notes

BuzziBooth features acoustic absorption, attenuation, and diffusion for low tones, mid tones, and high tones, as well as visual privacy.

Surfaces

Fabric Grade A

Fabric (BFA)
Trevira CS+ (BCP)

Fabric Grade E

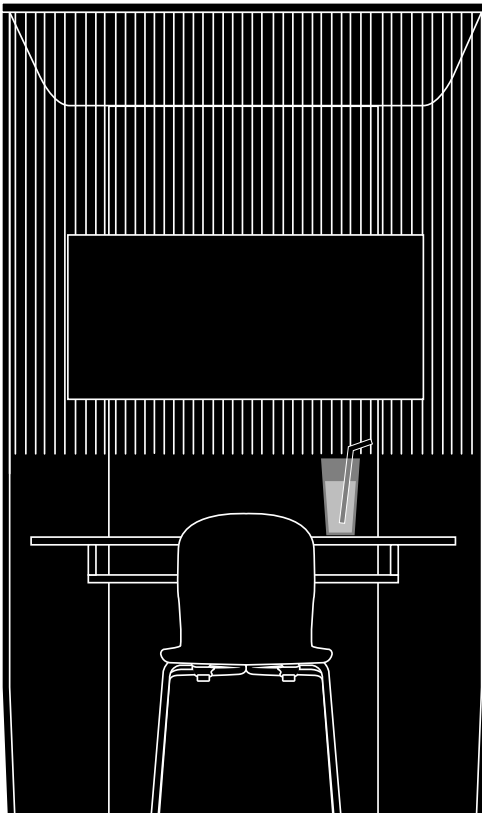

Kvadrat® Memory 2 (BM2)

Worksurface Laminate
