

Openest™

Collection

PRODUCT INFORMATION SHEET

HAWORTH®

Openest bridges the concepts of experience and environment, giving rise to warm, inviting spaces to gather, share ideas or simply relax. Brought to life by Patricia Urquiola and Haworth, at the core of the Openest Collection are unexpected yet familiar lounge furnishings that set the tone for thoughtful connection and contemplation.

“Flexibility mixed with comfort—creating more types of comfort zones, so people feel good at work—this idea was the first step in creating Openest.”

—Patricia Urquiola

Guided by the desire to make people feel grounded and at home while at work, Openest elements share a soft look and feel that draw people in. Upon closer inspection, rich textiles and finish details add a sense of custom tailoring and fine craftsmanship.

Each Openest piece stands beautifully on its own, while the collection comes together to create fresh, stimulating environments that provide engaging spaces to meet your business needs.

Always approachable and inherently comfortable, Openest provides a welcome change of scenery—perfect for creative collaboration or a quiet moment alone.

When Haworth sought a design partner to help bring our vision for the future of active, informal environments to life, we knew it could only be Patricia Urquiola. Born and educated in Spain and headquartered in Italy, Patricia is a true visionary—her unconventional yet welcoming buildings, furniture and objects for the home have won awards and admirers the world over. In Openest, Patricia balances her experimental, spirited style with real-world warmth and usability to create spaces that feel familiar, yet wholly unexpected.
