Human beings are social creatures. We crave interaction and thrive in moments of spontaneity. Immerse tables were thoughtfully designed from a partnership between Haworth and Patricia Urquiola to help us connect, collaborate, and engage. They create a landscape of varied surfaces, providing a welcoming community hub that transforms collaborative experiences, warms up the work environment, and promotes well-being.
Catalyst for Collaboration
Creativity and innovation can take shape at a moment’s notice with Immerse. A catalyst for spontaneous collaboration, each table creates a social hub of positive energy that invites serendipity, variety, and choice in the workplace.

Features
Immerse creates a range of options to sit, stand, and support overall well-being while collaborating:

Shift – Creates two adjacent sitting and standing worksurfaces, each at varied heights, to support choice and a natural inclination to work together.

Overlap – Made for movement, sitting, or standing, with a unique dual level worksurface that supports well-being and your choice to sit, stand, and work actively.

Stack – Features a double-layer design with a lower sill for storage that is handy, yet out of the way.

Single – Creates an all-purpose collaboration space where teams can come together, connect, and collectively engage with one another.

Optional planter – Provides central open storage and power outlets, letting teams share, store and power up for thoughtful engagement.

Colors, Materials, Finishes
Worksurfaces are available in laminate, powder-coat paint, solid surface, or veneer. Leg base options include powder-coated steel, as well as wood finishes in Clear on Walnut, Clear on Oak, and Ink on Ash.

Awards and Innovations
• Meets and exceeds ANSI-BIFMA standards
