

Ergotron® Mobile Carts

These versatile, height-adjustable mobile carts untether users, freeing them to wheel their technology wherever it's needed. Mobile carts turn any space into a productive environment that brings movement, flexibility, comfort, and well-being to each user. Durable and dependable, they fit a variety of work flows and workstyles, making them ideal for office, education, healthcare, and hospitality environments.

HAWORTH®

Keeping People Moving

The Ergotron mobile cart product line features a height-adjustable platform surface that can accommodate almost any tablet or laptop. The surfaces allow sit-to-stand freedom of movement and user control. Ergonomically designed, they help users reduce eye, neck, and back discomfort. Patented technology in all Ergotron carts lends stability throughout the height-adjustment range. Like all Ergotron products, they provide great value with years of trouble-free operation.

Features

Ergotron mobile carts are offered in various styles that can be customized to enable greater user efficiency and comfort and encourage collaboration. Options include monitor arms, extensions, and conversion kits to equip the carts with monitors, keyboards, laptops, tablets, projection devices, storage and more. For easy movement across a carpet or flooring, the carts have four gliding dual casters; the front pair is lockable.

TeachWell® Mobile Digital Workplace

- Sit-to-stand performance – Features a height-adjustable platform that moves the keyboard display and worksurface in one simple, fluid motion.
- Space-efficient footprint – Fits in tight spots and helps reduce total infrastructure investment.

LearnFit® Sit-Stand Desk

- Ideal for education – Transforms classrooms into active learning environments with simple, on-demand height-adjustability.
- Student- and teacher-friendly – Fits ages 12 to adult for sit-stand, or ages 6 and above for stand-only.

LearnFit Adjustable Standing Desk

- Lightweight design – Moves easily into different classroom configurations to enhance learning.
- Broad adjustment range – Fits ages 9 through adult at standing height.

Neo-Flex® Laptop Cart

- Well-appointed – Comes with a laptop security system, 20 inches (51 cm) of height adjustment (work sitting or standing), large worksurface, small footprint, and a rugged, open-architecture design.
- Laptop security system – Offers theft deterrent protection as well as stability against unintentional bumps.
