

Candor™

Effortlessly Graceful.

Aptly named, Candor is straightforward and open — elegantly balanced and simply detailed. Yet Candor possesses an unmistakable dash of personality. With details unexpected at its price point, Candor sets a new standard in value. Subtle touches such as double-stitch leather detailing and sculpted legs elevate this family of seating to a higher level. And Candor is more than aesthetics. User comfort is built-in, with precision-molded foam, profiled arm edges, curved slats and other advanced features. In one family, Candor meets all of your guest seating needs.

Designed by Pimental-Light-Duffy Design in collaboration with Haworth Design Studio.

HAWORTH®
change by design

Candor

Two Approaches. Multiple Aesthetics.

Candor Classic complements a timeless, transitional style with a classically curved back leg and gracefully bowed seat back. Candor Modern goes bold with a linear back leg that agrees with a progressive, contemporary environment. At front, both versions exhibit a confident, 90 degree stance.

Use Candor in a variety of applications, from private offices and open plan to hospitality, conferencing and dining areas. Choose from standard wood finishes, or match your own finish flawlessly. Haworth's industry-leading capabilities make it easy. Then add fabrics and leathers from the Haworth Surface Collection or Haworth+ offering, which includes Carnegie, Luna Textiles and Maharam fabrics, to harmonize with any environment.
