

Hello

Definitely not the same old same old.

Hello is a fun yet sophisticated breath of fresh air in a world of stuffy meeting rooms and stodgy reception areas. Edgy, without the sharp edges. Cool, casual and comfortable, yet totally supportive of the task at hand. Some roll, some store, some work just fine without a table. All bring zest to conference rooms, offices and reception areas while saying "bye-bye" to the same old same old.

Hello

Have a chair.

Guest chairs are available in all wood, or with metal rear legs. The unique curved arm and leg design on the wood guest chairs subtly echos the softly rounded design of the Mobile Lounge series, below, for a planned, balanced look that's never boring.

Anything that says Hello is available in our fabrics or yours.
